Nitish Vishwakarma

Software Engineer | Full Stack Developer
+91 8187970961 | nitishvishwakarma44@gmail.com | linkedin | github

Summary

B.Tech graduate in Computer Science with internship and project experience developing backend and full-stack applications. Skilled in JavaScript, Node.js, Express.js, React.js, MongoDB, REST APIs, and JWT authentication, with experience building database-driven services and integrating frontend and backend systems. Strong foundation in OOP, DBMS, data structures, debugging, and problem-solving, with a focus on writing clean, modular, reliable, and maintainable software.

Technical Skills

Programming Languages: Java, JavaScript, Python, SQL

Backend Development: Node.js, Express.js, Flask, REST APIs, JWT, Authentication & Authorization, Mongoose

Frontend Development: React.js, Next.js, HTML, CSS, Tailwind CSS, Responsive Web Design

Databases: MongoDB, MySQL, CRUD Operations

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, Exception Handling, Debugging, Problem Solving

Developer Tools: Git, GitHub, Postman, VS Code, GitHub Actions

AI & Development Tools: ChatGPT, Gemini AI, GitHub Copilot, Prompt Engineering, AI-Assisted Development

Experience

Bluestock Fintech Remote
SDE Intern Nov 2025 - Dec 2025

- Developed REST APIs using Node.js, Express.js, and MongoDB for scalable backend services.
- Implemented secure authentication using Firebase OTP and JWT-based authorization.
- Integrated React.js frontend with backend APIs using Axios for seamless data flow.
- Designed responsive UI components using React.js and Material UI based on Figma designs.

Projects

InterviewReady AI | React.js, Node.js, Express.js, MongoDB, Gemini AI Jul 2026- Aug 2026

- Developed an AI-powered interview preparation platform that analyzes resumes and job descriptions to provide personalized interview preparation.
- Integrated Gemini AI to generate technical and behavioral interview questions based on the candidate's profile and target job.
- Implemented AI-based resume and job description analysis to calculate match scores and identify important skill gaps.
- Implemented JWT authentication, PDF resume parsing, RESTful APIs, and MongoDB for secure user and interview report management.
- Added AI-powered resume tailoring and Puppeteer-based PDF generation to create job-specific, ATS-friendly resumes.

Fake News Detection System | Python, Flask, Machine Learning, MERN Stack Nov 2025 - Feb 2026

- Developed a full-stack fake news classification system using MongoDB, Express.js, React.js, Node.js, and Flask.
- Processed and analyzed 9K+ news articles using NLP techniques including TF-IDF and text preprocessing.
- Trained Naive Bayes and Decision Tree models for real-or-fake news classification with 99.14% accuracy.
- Integrated Flask REST API with MERN frontend to enable real-time predictions and result visualization.

Certifications

- AI and ML with Data Science, IIT Roorkee 2025
- NPTEL: Data Structures and Algorithms using Java 2024

Education

R.D. Engineering College Ghaziabad, India
Bachelor of Technology in Computer Science | CGPA: 7.76/10 Oct 2022 – May 2026
